

## **CME (Continued Medical Education) Workshops**

The RDT Bathalapalli Hospital organises frequent Continued Medical Education (CME) workshops featuring renowned speakers from various hospitals. These sessions include lectures and live surgeries aimed at educating doctors, nurses, and technicians. Each year, these aids revolve around different themes, focusing on crucial topics to advance the skills of medical professionals. This enhanced expertise enables them to address societal healthcare needs better and handle individual cases more effectively. The Hospital hosts approximately 10 to 12 CME programs annually across its departments with the primary goal of empowering the doctors with practical exposure to a wide range of cases.
